Overall Rating

Review Title I highly recommend WestNet for any LMS needs.

Pros The WestNet System has been incredibly easy to implement due to the level of customer support I have been provided. Every reporting feature that I need was available or has been customized to my business.

Cons None at this time

Overall Recommendation I highly recommend WestNet for any LMS needs.

Review Title	Great vendor for the duration
---------------------	-------------------------------

Pros	We have had most of our online classes hosted at WestNet for the last several years with great results. The company stands behind its system 100% and is very responsive. Problems are practically inexistant but if they ever appear they are fixed in "internet time" with a smile!
-------------	---

Cons	We do not have any issues to report here.
-------------	---

Overall Recommendation	We have been recommending this vendor to anyone who has asked us and we will continue to do so.
